

Summary Of Services

Not all services are available under the NHS. The practice does however offer many additional services, for which there is a charge. We try to keep these charges to a reasonable figure, and also try to ensure they are in line or below those of alternative providers.

This list is not exhaustive; if you are interested in a service or item which is not listed, please enquire at the reception desk.

This leaflet is available in a larger print version if required, please ask at Reception.

Access to Medical Records

Under new GDPR rules, Patients would normally be expected to access their own medical records via the NHS app or SystmOnline, which a Patient would need to sign up for to get access to their full records.

If a patient is unable to do this, we can provide copies where necessary, or which there is a no charge. A consent form must be completed and signed
