

## Summary Of Services

Not all services are available under the NHS. The practice does however offer many additional services, for which there is a charge. We try to keep these charges to a reasonable figure, and also try to ensure they are in line or below those of alternative providers.

This list is not exhaustive; if you are interested in a service or item which is not listed, please enquire at reception OR email [ddicb.bmp@nhs.net](mailto:ddicb.bmp@nhs.net)

### Access to Medical Records

Under GDPR rules, Patients would normally be expected to access their own medical records via the NHS app or SystmOnline, which a Patient would need to sign up for to get access to their full records.

If a patient is unable to do this, we can provide copies where necessary, for which there is a no charge. A consent form must be completed and signed (available from Reception).
